

HOW TO FEED YOUR DOG PILLS

A HANDY GUIDE FOR ALL PET OWNERS

1

WITH ONE HAND, GENTLY GRASP THE SIDES OF YOUR PET'S UPPER JAW {THE AREA BEHIND THE CANINE TEETH}.

2

USING YOUR OTHER HAND, HOLD THE PILL BETWEEN YOUR THUMB AND INDEX FINGER.

3

TILT YOUR PET'S HEAD UPWARDS SLIGHTLY. THEN USING YOUR MIDDLE FINGER, GENTLY PUSH YOUR PET'S LOWER JAW DOWNWARDS. THIS OPENS HIS/HER MOUTH.

4

PUSH THE PILL AS FAR BACK INTO THE MOUTH AS POSSIBLE, CLOSE TO HIS/HER THROAT.

5

QUICKLY HOLD THE JAW CLOSE AND MASSAGE YOUR PET'S THROAT GENTLY. YOU MAY ALSO FEED YOUR PET SOME WATER USING A SYRINGE TO HELP HIM/HER SWALLOW.

CHECK IF YOUR PET HAS ACTUALLY SWALLOWED THE PILL. IF NOT, DON'T STRESS AND JUST TRY AGAIN.
